## Standard & Self-propelled Turf Overseeders

Classen Turf Overseeders make it easier than ever to seed a new lawn or overseed an existing lawn. The new metal seed paddle agitator improves the mixing and dispensing of seed, easy access controls allow for precise metering of the seed and a front seed drop guarantees follow-up soil coverage for better seed germination. Not to mention, the solid, all-metal seed box is more durable and easy to remove, so you can pour out excess seed or convert the unit to a rake or cutter with a simple change of the reel. Available as standard or self-propelled\* drive.

\*Self-propelled models have infinite speed from 0 to 3.4 mph, operate both forward and reverse and are great on hills.

PRODUCT NUMBER	TS-20H / TS-20B	TSS-20H / TSS-20B
ENGINE	Honda® GX160 or 5.5 hp Briggs & Stratton® Intek	
DIMENSIONS	39"H x 27"W x 51"L	39"H x 31.5"W x 51"L
